HS420t

Connection

Autosense
Modem or Fax

Multipart Paper

The HS420t can handle up to 6-part paper, plus it stores a form alignment pattern for accurate alignment of all data on the form. Reprinting the last transmission is as easy as pushing a button.

Rugged

Engineered for the diverse and demanding needs of remote printing, the HS420t is a rugged remote printer based on traditional dot matrix technology.

Plug-and-Play

The HS420t is specifically designed for instant compatibility with your existing network of remote printing devices. No changes to your host system are required.

Call 800.527.4716 extension 211 to request an eval unit today!

Features & Specifications

HS420t

Features

- Modem
- Form Alignment Pattern
- Configurable report archive
- Error notification
- Auto print on receive

Manageability

- Remotely programmable
- Remotely upgradeable
- Remote diagnostics
- Log of received reports

Security

- Answer back memory

Specifications

Connection

- 56k v.92 modem

Dimensions:

- Size = 17.7"W x 13.6"D x 6.0"H
- Weight = 17.4 lbs

Compatibility

- All major LIS applications

Warranty

- 2-Year limited parts & labor
- Extended plans available
- MTBF > 20,000 hours

Technical

- 312MHz processor
- 512MB storage (256MB available)
- 64MB memory

Entre Technology

Serving the technology needs of the clinical lab market since 1984.

Address
